

City of Titonka – Tree Trimming

The City will be marking and numbering trees that need trimming. They hope to have the marking completed by August 1, 2020. They will be concentrating on the streets that run east and west in the north end of town, along with the entire south end of town. The mark will be made with white paint on the curb by the tree. If there is no curb, the mark will be made on the actual street, straight out from the tree. It is your responsibility to note the marking and trim the low branches from the tree. If the marked trees are not trimmed by September 1, 2020, the City will hire someone to trim them, and you will be charged accordingly. If you are a renter and have a marked tree, please notify us.

Please call City Hall at 928-2850 if you have any questions.
